

Course Director

Ronald Boyer, M.D.

Ronald Boyer, M.D., is an internationally recognized authority in the education and practice of homeopathy. He holds a doctorate in medicine from the University of Montpellier in France.

Dr. Boyer maintained a private practice specializing in family medicine for more than 30 years, during which time he lectured extensively on the subject of homeopathy for the CEDH throughout France and the United States.

Dr. Boyer is a founding member of the International Medical Homeopathic Organization (IMHO), an honorary member of the South African Homeopathic Medical Association (SAHMA), and member of the Homeopathic Pharmacopoeia of the United States. Dr. Boyer is assisted by practicing physicians qualified in homeopathy and trained both in the foundations of the CEDH teaching course and in the use of its teaching tools.

Dr. Boyer is the co-author with Dr. Alain Horvilleur of eight books: "Homeopathy During Pregnancy," "Homeopathy and Headaches," "Homeopathy and Stress," and "Homeopathy and Rheumatism", etc.

Testimonials

"I had been incorporating homeopathy into my integrative pediatric practice for several years prior to taking the CEDH course, and I can honestly give my highest recommendation for the CEDH course as THE course to take for the busy physician who wants to learn a comprehensive and immediately practical way to incorporate homeopathy into their clinical practice. Homeopathy has provided me with an invaluable tool to successfully treat my children with acute illnesses as well as complex and chronic conditions such as asthma, eczema, and autoimmune illness – without the side effects of the increasingly aggressive off-label pharmaceuticals that are now being employed. I encourage all medical practitioners to take this course and explore the power and potential that homeopathy has to offer their patients."

Elisa H. Song, M.D., FAAP. Whole Child Wellness, Belmont, CA

"I find that the joy of medicine has returned as I learn homeopathy. It is a gentle and powerful form of medicine that I could start using on my patients the day after the first seminar. The teachers are fantastic! I wish I had this course in medical school. Homeopathy is synergistic and complimentary to osteopathy as well. I am so glad I found this class and my patients are too!"

Kate McCaffrey, D.O., Family Medicine, Osteopathic Medicine, Arcata, CA

"I have been in family practice for 20 years. My concern has always been the side effects that I see with almost every medicine that my patients use. I treat one problem, and later on, I get calls regarding obvious side effects my patients are experiencing. The more latent side effects that I see but that the patients do not connect to their medicines worry me even more. Last year, I got an email regarding homeopathy that caught my interest. I didn't know what to expect, but I took the CEDH course with an open mind. With every single class, I realized I made the right decision, and found what I was looking for—an alternative treatment without side effects for my patients. Now it has completely changed how I practice medicine. I thought I was a "good doctor" before because I wanted the best for my patients. Now, I have the tools necessary to do so without causing harm that is normally associated with allopathic medicine. I highly recommend this course to any doctor in any field of medicine. A few months will change how you practice for the rest of your life."

Antonio Barajas, M.D., Chicago, IL

"I am a Family Physician and I incorporate homeopathy in my practice when appropriate. The patients love it. They appreciate the fact that there are no side effects, no contraindications and, most importantly, they appreciate that their doctor is open to other methods of therapy. The CEDH course is quite comprehensive. The course professor, Dr. Ronald Boyer, has such a deep knowledge of homeopathy, that it is a pleasure to attend the classes. There is also a very friendly learning atmosphere. I am very happy that I have done the course and look forward to continue practicing homeopathy in my office."

Albert Levy, M.D., FAAFP, New York, NY

Why Study Homeopathy?

Used by hundreds of thousands of physicians worldwide, homeopathy is one of the most popular medicines in the world and is progressing rapidly. Patients are increasingly in search of safe and natural alternatives. Homeopathic medicines present multiple advantages:

- Clinically used for more than 200 years
- Safe, non-toxic and without side effects
- No interference with other medicines
- Students can start incorporating homeopathy after the first class

Homeopathic medicines, regulated as drugs by the FDA (In Canada regulated as drugs by Health Canada), can be used as first-line treatment for a large number of acute or chronic conditions, either alone or in conjunction with conventional medicines.

The Center for Education and Development of Clinical Homeopathy (CEDH)

Founded in 1972, the aim of the CEDH is to give physicians the most reliable knowledge on homeopathy in a clear, pragmatic and clinical approach. To learn homeopathy is not only to obtain new theoretical and practical knowledge, but also to acquire the know-how that will allow its integration into everyday medical practice.

The teaching methodology of the CEDH is based on:

- Medical **clinical** reality
- Homeopathic medicines as a therapeutic choice, based on their place in conjunction with other therapeutic possibilities
- **Reliability** of the sources
- References to current medical knowledge

Key Points

- **Lifetime membership is offered to students with Full Enrollment**
- 3,000 physicians are being trained each year in more than 20 countries throughout the world
- More than a thousand Health Care Professionals have taken the course in North America (USA & Canada).
- A team of 80 physicians developed these teaching techniques
- A clinical training in phase with today's medicine
- A balanced teaching methodology between know-how and know-to
- More than 800 Health Care Professionals are on the CEDH web forum
