Closing keynote

Dr Ronald Boyer, President, CEDH USA, Philadelphia, PA - USA

Join us, in the USA, for the 1st International Conference on Clinical Homeopathy (ICCH) to learn how homeopathy can help physicians in specific pathologies where individualized care is essential.

Program Chair

Ronald P. Boyer, MD
President CEDH USA, Edgemont, PA

1. Dementia

How can homeopathy help patients with symptoms of dementia and bring some support to family members who are often overwhelmed by their changed loved one.

Jacques Touchon, MD, PhD
Chief of the Neurology Department, Montpellier University Hospital - Montpellier, France

2. ADD – ADHD

Pediatricians working with children with ADD will discuss their clinical experiences using homeopathic medicines.

Larry Baskind, MD
Clinical associate professor at New York Medical College, New York City, NY and attending physician at Hudson Valley Hospital Center

3. Pain Management

A multidisciplinary approach that addresses not only the physical component, but also the mental and emotional components.

Marcel Fraix, DO
Assistant Professor at Western University of Health Sciences - Pomona, CA

4. Best supportive care in Oncology

Quality of life patients must be our first priority and therefore has to be the common medical denominator.

Jean-Claude Karp, MD
Visiting physician, oncology and radiotherapy department, Troyes University Hospital-Troyes, France

5. Clinical Research and Homeopathy

Peter Fisher, MD
Clinical Director and Director of Research at the Royal London Hospital for Integrated Medicine (RLHIM), London, UK

6. How To Integrate Homeopathy Into Your Daily Practice

Create a deeper, safer, and more individualized therapeutic relationship with your patients.

John Golden, MD
Medical director of the Genesis Integrative Wellness Center - Moline, IL
